POLISHING SYSTEMS

Our Polishing Systems are composed of “**MicroMesh Polishing Abrasives**”, or other wise known as “The Great Equalizer” because now ANY modeler can achieve a glass-smooth gloss finish using almost any type of paint, including spray cans. It can be used to eliminate “orange peel”, dust marks, runs, edge pooling and other finish blemishes.

This system uses a series of fine grit abrasive polishing cloths to gently smooth out the paint surface imperfections and establish a uniform surface for final waxing. Starting with a courser grit to smooth out the initial finish and ending with the finer grit to buff away the marks left by each previous grit until a glass smooth final paint finish is left. This is a paint removal system, and you must work from grit to grit until you get to the 12000 grit. Apply a high quality auto wax and your finish will shine and be as smooth as glass. Complete instructions are included on each package. After all your hard work detail the engine, chassis and interior doesn't your model deserve a glass smooth finish??

SKILL: Average

\$4.75 Each

PART #	Description	Grit	Size
DM 9001	Polishing Abrasive	1500	3" x 4"
DM 9002	Polishing Abrasive	1800	3" x 4"
DM 9003	Polishing Abrasive	2400	3" x 4"
DM 9004	Polishing Abrasive	3200	3" x 4"
DM 9005	Polishing Abrasive	3600	3" x 4"
DM 9006	Polishing Abrasive	4000	3" x 4"
DM 9007	Polishing Abrasive	6000	3" x 4"
DM 9008	Polishing Abrasive	8000	3" x 4"
DM 9009	Polishing Abrasive	12000	3" x 4"

DM 9000 Polishing System Assortment \$17.95

Includes one each 3"x4" abrasive cloth, 3200, 3600, 4000, 6000, 8000, & 12000 grits

This is an assortment of the most essential abrasive cloths for polishing most common paint finishes. Also available are 1500, 1800 & 2400 grits for really troubled paint finishes. *For best results DO NOT SKIP any grits after starting. Each grit must be used sequentially for the best results!*

scratch the paint surface. 8" x 10"

FINE GRIT SANDPAPER

Here's some great sandpaper for body prep work, "wearing" tires and general sanding. This fine grit paper is made of silicium-carbide and can be used wet or dry. It's both soft and flexible and strong and durable. A real handy paper to have on hand.

DM 9050 Fine Grit Sandpaper – 600 Grit \$2.25

DM 9051 Fine Grit Sandpaper – 800 Grit \$2.25

DM 9052 Fine Grit Sandpaper – 1200 Grit \$2.25

DM 9055 Fine Grit Sandpaper Assortment – 1 ea. 600, 800 & 1200 Grits \$5.99

DECAL PAPER

Here's a high quality BLANK decal paper perfect for creating custom graphics, pin-striping, custom lettering, color blends and more. You can use this paper with color copiers or DRY INK printers, drafting or opaque inks. Printers and copiers may require experimentation as not all machines will work with this glossy surfaced paper. Instructions and some observed limitations are included with the product.

DM 9100 CLEAR Blank Decal Paper 1 pc. 8 1/2" x 11" \$4.25

DM 9101 CLEAR Blank Decal Paper 3 pak 8 1/2" x 11" \$11.95

ULTRA THIN KROME FOIL

Finally a high quality, reliable, easy to use and form foil line. Our foil is thinner than most available foils making it easier to form on complex curves like bumpers. Our adhesive is formulated

Customizing Templates

Now you can add Hot Flames and Cool Graphics to your models. These Templates are laser cut and made of durable plastic so they can be used time and time again. Use them to design and then trace your designs onto masking material. Cut out your designs, mask it to your model, add paint and you will have the coolest paint job out there!

New Parts Coming Soon!

We are working on several new items to add to our catalog. The first item to be released will be our awesome little filter sets. We will have 3 different sizes to offer.
